

Advancing the HR agenda in American politics.

What is the SHRM Advocacy Team?

The SHRM Advocacy Team is a critical part of the Society's enhanced member advocacy initiative, working to advance the interests of the HR profession in Washington and state legislatures. Made up of SHRM Advocates in key legislative districts, the Team works to advance the HR perspective on workplace issues by leveraging the reach and knowledge of SHRM members through grassroots advocacy.

What is its purpose and why is it important?

When Congress or state legislatures are developing workplace policy, HR's voice needs to be heard. As advocates for the HR community, SHRM members understand and can communicate how public policy issues may affect employees, employers and the HR profession as a whole. By working together, we can help advance effective workplace public policy and strive to move our profession forward.

How can I get involved?

You can enroll in the program by nominating yourself as an HR Advocate. If you are interested in leading other SHRM Advocates within your congressional district, you can also nominate yourself to serve as a "District Captain." There are benefits to both.

What are the direct benefits of being an HR Advocate or a District Captain?

Team members will be invited to participate in special events and receptions in connection with SHRM meetings and conferences, may be afforded continuing education/certification credits, and can have a direct impact on workplace policies at both the federal and state levels.

Are you interested in becoming a District Captain of the SHRM Advocacy Team? Here's a brief "Job Description."

District Captains will recruit and coordinate fellow SHRM members to participate in advocacy efforts, coordinate and attend meetings with local elected officials, and reach out to like-minded community organizations to educate them about SHRM and its public policy priorities. You must be a SHRM member in good standing and a practicing (or former) HR professional. HR certification is highly desirable.
